FACILITIES

ACCESS TO MAIN OFFICE

We welcome faculty and students. Feel free to stop by during the day. Please let us know how we may be of help.

LOUNGE

The Lounge is available to faculty, staff and students. Please use this opportunity to meet other people in the Department.

The computer in the lounge is available to all philosophy students (majors, minors, and graduate students) to use for access to the Philosopher s Index and e-mail.

MAIL ROOM AND BULLETIN BOARDS

Faculty and Graduate Student mail boxes are located in the mail room. Faculty and graduate students also have their bulletin boards located in the mailroom and lounge. These bulletin boards contain a lot of useful information including job information and a variety of miscellaneous information as well.

RESOURCES

DEPARTMENTAL

The department offers A.B., M.A. and Ph.D. degrees in Philosophy. The department also participates in a master s level artificial intelligence program and is associated with the Environmental Ethics Certificate Program and the Women s Studies Program. Courses offered for these programs are also available to our students.

The University s Main Library contains three million volumes, including an excellent collection in philosophy. The Library is connected to all major research libraries in the United States.

COMPUTER NETWORK

The campus-wide network connects virtually all the multi-user computers on campus, as well as many PCS and MacIntoshes. It is part of the Internet. You can log on from the Main Library. You may also acquire a free UGA email account and we encourage all undergraduate and graduate students to do so. We also ask that when you get your new account, you notify the departmental office of your email address. We use email to communicate with our students concerning upcoming events, meetings, and notices. If you object to our using your email address for our majors list, please notify the office.

Computer labs in the Main Library and elsewhere on campus provide PCS or MacIntoshes primarily for student word processing, laser printing, and logging into other systems on the network. They are open to all University students.

COLLOQUIUM SERIES

The department has an active colloquium series. It also cosponsors interdisciplinary conferences. Such conferences have included: Philosophy of Education, The Epistemic Status of Theistic Belief, and Minds: Natural and Artificial.

HORACE B. RUSSELL PRIZE AWARD

The Horace B. Russell Prize, in the amount of \$200.00, is awarded each year to the undergraduate who writes the best essay in ethics. Applications should be submitted no later than the midpoint of the Spring Semester.

RICHARD H. SEVERENS SCHOLARSHIP

The Richard H. Severens Scholarship is awarded each year to a senior who is an Honors philosophy major. All seniors who are Honors philosophy majors enrolled in the Fall Semester will automatically be considered for the scholarship to be made available in the Spring Semester. Honors thesis plans will be a criterion in awarding the scholarship, and the recipient must also hold a GPA of at least 3.15 during the scholarship period. The Richard H. Severens Scholarship is made possible by the donors of the Richard H. Severens Scholarship Fund.

PHI SIGMA TAU

The national philosophy honor society sponsors guest speakers throughout the year. The mission of the club is to promote interest in and discussion of philosophical issues. Over the years, Phi Sigma Tau has sought to complete this mission by hosting graduate student conferences, organizing a lecture series by professors from our university, hosting philosophical conferences, and sponsoring visiting speakers. Phi Sigma Tau is open to all undergraduate and graduate students. It is easy to join Phi Sigma Tau; complete a form and pay a one-time fee of \$25.00. As a member of Phi Sigma Tau, you will receive copies of the journal Dialogue.

The more members that we have to join the more likely we are to receive funding from Student Activities. As the population and the number of clubs on campus has grown, competition for funds has become more intense. Therefore, the more members we can claim the better.

REQUIREMENTS FOR THE PHILOSOPHY MAJOR AND MINOR QUARTER SYSTEM

GENERAL REQUIREMENTS:

1. The following courses are strongly recommended as a foundation for the major or minor in philosophy:

PHY 100 or PHY 101 or PHY 214H or PHY 215H
PHY 110 or PHY 210H
PHY 205 or PHY 205H

2. A philosophy student's Program is a block of courses which the student's philosophy advisor certifies as satisfying the Department's requirements for the major or minor in philosophy. The student must receive a grade of C or higher in each course of the Program.

REQUIREMENTS FOR THE MAJOR:

3. For the philosophy major, the Program must total 40 hours or 8 courses (8 semester courses = 24 hours) of coursework at the 300 level or higher with a PHY prefix or in a cognate area. At least 20 hours on the Program must be in courses with a PHY prefix taken at the University. At least 10 hours must be in the history of philosophy. No more than 10 hours can be in a cognate area. All cognate area courses must have clear relevance to philosophy.
4. Each student is required to choose a faculty member, other than their advisor, to serve as their Academic Career Advisor. This should be done as soon as you are being advised in the department but no later than the start of your senior year.
5. During the final semester of enrollment each major shall submit a major portfolio consisting of the following: (i) the major requirements completion form which includes a list of all philosophy courses taken; (ii) an example of the student's best written work; (iii) a statement summarizing the student's expectations as a beginning major, the student's current expectations, outstanding features of the student's course of study (positive and negative), and any advice or recommendations the student has for the department; and (iv) a brief report of the results of the exit interview with the academic career advisor designed to assess the major's knowledge in some of the following areas of philosophy: history, metaphysics, epistemology, logic, and ethics.
6. Graduation check must be done with Shala Bolton, Arts and Sciences, New College, at least 3 quarters before graduation.

REQUIREMENTS FOR THE MINOR:

7. For the philosophy minor, the Program must total 20 hours of courses at the 300 level or higher with a PHY prefix taken at the University.

GUIDELINES FOR THE PHILOSOPHY MAJOR PORTFOLIO

Each philosophy major is required to submit to the department a Major Portfolio as part of their graduation requirements. The following are guidelines to help you accomplish this task without too much trouble.

You are required to choose a faculty member, other than your scheduling advisor, to serve as your **Academic Career Advisor**. This faculty member will be assisting you in your preparation of the Major Portfolio, to discuss career choices or opportunities for graduate study, and will administer the **exit interview**. This should be done as soon as you are being advised in the department. If you have chosen someone and later decide to change, you are permitted to make one (1) change. You should be in contact with your advisor as soon as you have chosen him/her to make arrangement for your meeting(s).

1. During the final semester of enrollment each major shall submit a major portfolio consisting of the following: (i) the major requirements completion form which includes a list of all philosophy courses taken; (ii) an example of the student's best written work; (iii) a statement summarizing the student's expectations as a beginning major, the student's current expectations, outstanding features of the student's course of study (positive and negative), and any advice or recommendations the student has for the department; and (iv) a brief report of the results of the exit interview with the academic career advisor designed to assess the major's knowledge in some of the following areas of philosophy: history, metaphysics, epistemology, logic, and ethics.

NOTE: If your Major Portfolio is not turned into the Department, you will not receive your diploma.

2. Graduation check must be done with Claire Foggin, Arts and Sciences, New College, at least 2 semesters before graduation.

Grade Appeals

Ordinarily the assignment of a grade is solely at the discretion of the instructor. However, to protect students against the possibility of an assigned grade having been influenced by considerations that are academically inappropriate, the Department has adopted a formal appeal procedure.

Before initiating a formal appeal, the student shall first discuss any disagreement concerning an assigned grade with the instructor of record or, if the instructor of record is not available, with the Head or a representative of the Head. If the matter is not resolved to the satisfaction of the student, the Head or a representative of the Head shall meet with the student and the instructor to discuss the student's concern. The purpose of this informal meeting is to explore ways of resolving the conflict. The Head or the Head's representative may make recommendations to the instructor, but these shall not be binding. If the matter is still not resolved to the satisfaction of the student, he or she may initiate a formal appeal as described below.

1. The appeals procedure must be initiated by the student's submitting to the Head a detailed written statement of the grounds for dissatisfaction with the assigned grade.
2. The Head shall inform the student in writing that the appeal can result in either an affirmation of the assigned grade or its change to any other grade.
3. The Head shall appoint a committee comprising of Department members having competence in the subject but excluding the instructor who assigned the grade in question. That committee shall investigate the merits of the appeal. Except in instances in which contact is impossible, the instructor who assigned the grade must be given ample opportunity to discuss the case with the committee.
4. The instructor's standards of grading, unless they are widely aberrant, are not *per se* the subject of the committee's inquiry: rather, the committee shall assess the professional propriety of the manner in which the instructor has applied the standards in the individual case.
5. The committee shall determine whether the assigned grade is a proper one. If it decides that it is not, it shall specify the grade to be assigned.
6. The Head shall promptly, in writing, notify the student and (if possible) the instructor concerning the committee's ruling. If the committee has decided that a change of grade is warranted, the Head shall submit the appropriate form to the Dean's office, signed by the Head and countersigned by a majority of the committee.
7. The committee's decision is final. The *Statutes of the University of Georgia* (Article VIII, Section 2) assign to the Faculty the authority and responsibility to maintain academic standards; therefore, except for appeals specified in the *Statutes of the University of Georgia* and in the *Bylaws of the University Council of the University of Georgia* no grade, including W, WF, or I, can be assigned or changed by administrators of the Department, the College, or the University.
